MAY 1982 MEETING

Greetings fellow members and friends. You have all had time to enjoy this wonderful flying weather we're experiencing this May. Some of us are still sawing wood, sanding foam and making epoxy lay-ups.

This past month I had the opportunity to visit some of our members and take a looksee at their projects.

First on the list was Don Roberts of Noblesville, Indiana. Don is building a replica Zero with the primary structure of aircraft quality wood covered with foam and fiberglass. (Sure brings joy to a K.R. builders heart). The Zero will sport an aircraft powerplant, and Don's own retractable landing gear. The workmanship on this project is just beautiful and I can't wait to see the finished product.

Fred Morgan of Indianapolis is building a K.R. II and almost has it ready for painting. Fred began his project only last May, that's what I'd call real progress. All it takes is time, time, and more time.

I also had the opportunity to examine David Roch's own special K.R. I. Dave has made many mod's to his new KR and it sure looks sharp. He has lengthened and widened the fuse, plans to use an 1800 cc or larger V.W. and has some control mods in mind. Ought to be a real neat ship.

Good luck men, and keep up the good work.

May Meeting

This month's meeting was called to order by President Dick Ervin. We had some old business to discuss this month, our budget, which led to some new business to discuss, ways to cut our expenditures. One quick method to cut expenses is to cut newsletter costs.

A motion was made and carried to ask all members to donate stamp money, if they wish to continue receiving the newsletter. So folks, if you wish to continue to receive the monthly newsletter, please send me or give to Don Barnhart, twelve stamps. This will be your final newsletter unless we

President: Dick Ervin 542-8580
Secretary: Jerry Burner 352-0393

Vice President: Larry Jacobi 773-3112
Treasurer: Don Barnhart 846-8599

receive your stamps.

Trying to cut our budget anywhere isn't an enjoyable task and no one enjoys it, but to survive in today's economic environment, do it we must. So please support this movement and help your chapter recover financially. And if any one of you have a Ford (Better Idea) bring it to the meeting and share it with us.

Our guests for this month's meeting were Roland J. Mross, Indiana Department of Transportation, Paul Ruppert, Starquest Coporation, Lowell Blossom, Chuck Rider President, Chapter 235 in Kokomo, and our guest speaker Don Cassidy.

This month's program was arranged by Dick Traill. Dick talked Don Cassidy into flying his Spartain Executive into Wilderness Field. Don sure has a beautiful aircraft and those who attended the meeting got their money's worth for coming. Don gave tours of his aircraft and after everyone had a good look he held a question and answer session. The Spartain is powered by a 450 H.P. Wasp Radial Engine, Cruises at 212 M.P.H., Gross Weight is 4,400 lbs. and is of Tubular Steel Construction.

Thanks Don for giving us a great show and tour of your aircraft. Sure is one neat plane!

New Members

For the second month in a row we have the pleasure of welcoming two new members. This month we welcome William R. Coutz and Jim Capistran of Indianapolis, Indiana.

Bill Coutz is building a Q-2 and is a licensed pilot. Good luck with your project and welcome.

Jim Capistran is a private pilot with instrument and multi-engine ratings, Welcome Jim.

Fly-In Calendar

Our Chapter mail box has received some Fly-In invitations. Enjoy 'em.

MOST IMPORTANT ***

May 23, 1982	Chapter 67 Fly-In, Wilderness Field Bring Somethin to Eat (Pitch-In) Also bring your Flea Market Items.
May 22, 1982	Clean-up Party at the Hanger
June 20, 1982	Fly-In Pnacake Breakfast - Adams-Friendship Legion Field Breakfast from 7:30 to 1:00 Price \$2.75 per person Chapter #15113 Sponsoring.
July 2, 3 & 4	Warbird Air Rally, Mount Comfort Airport. " The Gathering of the Eagles".

June Program

For the June program, Dave Roch will be the host. I believe Dave will be talking about building and flying homebuilt aircraft. Should be interesting.

Our next meeting will be held Monday, June 7, 1982 at 7:30 p.m. at the Hanger. Be there if you can and enjoy. See Ya There.

Respectfully Submitted,

Jerry Bunner
Secretary

A handwritten signature in cursive script, appearing to read "Jerry".
