SEPTEMBER 1982 MEETING

I know you all missed not having a meeting last month, but I'm sure Oshkosh '82 filled the gap quite nicely. Sure was a lot of fun to look over all those fine aircraft; that is when one had the chance to get close enough. Oshkosh keeps drawing more and more people every year!

Our meeting this month had fine attendance, including a few guests. This month's guests were: Tom Soulsby, Jon Shallop, and Joe McPhail. We wish to thank you for attending our meeting and welcome you back for future meetings.

President, Dick Ervin brings to our attention that the October meeting is the officer nominating meeting. So show up early and cast your vote on the leadership of our organization for the upcoming year.

SEPTEMBER PROGRAM

Lou Owen had the program this month and covered prop-building. Lou built a fine wooden prop for his beautiful Tailwind. To obtain information on building props he read books and talked to many knowledgeable people.

Lou says that actually building the prop was not, in itself, difficult but it was time consuming and required a moderate amount of research. When Lou installed the prop on his Tailwind the performance was good but wasn't quite what we expected. So his prop is currently undergoing minor changes of pitch and/or diameter. Thanks for a fine program Lou, and good luck with your new prop.

Van Eller brought some slides taken of planes in a French Aircraft Museum. Fine pictures of some Aviation History. Thanks Van.

WINGS ON DREAMS

The film, Wings On Dreams, is available for fund-raising activities or just private viewing. See Dick Ervin.

EAA AVIATION FOUNDATION

Chapter 67 will have a brick in the new Aviation Center in Oshkosh, WI. A motion was made and carried at this meeting to donate \$500 to the new E.A.A.

President: Dick Ervin 542-8580
Secretary: Jerry Bunner 352-0393

Vice President: Larry Jacobi 773-3112
Treasurer: Don Barnhart 846-8599

home in Oshkosh. We should all be proud that our chapter is taking an active roll in such an important project.

NEW AIRCRAFT FLY

Bill Thornberry reports that has flown his rebuilt L-5. Bill says the plane flies great and needed no major changes after the first flight. A bird builders patch was awarded by Dick Ervin. Congratulations on a fine effort.

Acro-Pro I is ready to fly, just waiting on the pilot says Nathan Davis designer-pilot. Nathan had a bad cold but is just about ready to fly his original design aerobatic monoplane. Good luck, and we are eager to award you a bird builders patch.

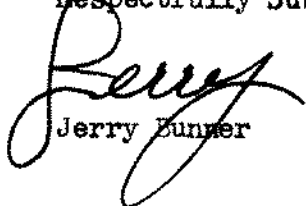

FALL FLY-IN

Our chapter fly-in will be held on Sunday, September 26, 1982 at Wilderness Field. Clean up day is Saturday. Be there if you can and remember to bring your meat and a pitch-in salad or desert. Hope the newsletter gets to you before the fly-in (I tried).

OCTOBER MEETING

Our next meeting will be held on Monday, October 4, 1982 at our chapter hanger at 7:30 p.m. Don Dole will be in charge of the program. See ya all there.

Respectfully Submitted,

Jerry Bunker

DOUGLAS D-558-2 "SKYROCKET" First version of the airplane which flew twice the speed of sound.
