

Chapter 67 Inc.
205 E. 161st Street
Westfield, IN 46074

March 1983

The President opened the meeting with a word of appreciation for the 'Sweetheart' dinner in Broad Ripple on the evening of Sat. 19th February; a great success--he wished all our members could have been there. An item in the EAA Bulletin deserving attention is a 72 min. slide and tape show titled "On Weather" for a hire charge of \$10.

Don Barnhart noted, with sadness, that Robert Bauer, an old time EAA friend and member of the Chapter, died in December. His son called to say that his father wished to return the T-Craft shares he had to the Chapter as a gift, for re-sale; a letter will follow to that effect.

Dick Ervin provided a description of a Reference Guide to Sport Aviation; after discussion, it was proposed and seconded that the Chapter buy a set for members' use.

A report was then made, by the President, of the Board Meeting of 26th February.

Dues There will be no increase, as the \$ 15.00 per member should cover the foreseen expenses, at the present time. The hangar fund contribution will stay at \$50.00 and the request for stamp money has been dropped (it became very difficult to keep track of those who paid and those who did not) but any donations for that purpose will always be welcome. The Newsletter will be sent to all those members who have paid dues and who are therefore included in the Roster, as of March 1983.

There was some discussion of a penalty for late dues; also mention of pro-rating new members, so that the renewal date for all members becomes Jan. 1st each year.

Social Events FLY-IN Picnic Dates were decided:

Spring Picnic	Sunday 22nd May
Fall Picnic	Sunday 18th Sept.

Also an invitation by Van Eller for Sunday 26th June, to Rochester, Indiana (Easy to fly--except for Grissom--about 80 miles by road)

A trip to Dayton Museum will be investigated by Bill Thornberry, who will report details later.

Hangar Policy was decided and a notice was put on the board to the effect that the Chapter Designees will have full authority to decide priorities of the projects and to modify duration and charges for all wishing to use the hangar.

Repair of the hangar doors will soon be started.

Landscaping, by planting a few trees to the north of the hangar is to be implemented by Van Eller and our local volunteer hole diggers--John Adolfson, Bill Thornberry and Joe Ferraro!

Finally the main immediate topic the GLENDALE SHOW
