President's Report.

Headquarters is strongly urging that all local chapter members join the national EAA organization. They feel that it is important for all members to support the unified effort to help maintain our flying freedom. Another benefit is a fine monthly publication, Sport Aviation.

We now have two new video tapes available from headquarters. One is about insurance and liability, made by Avemco. The second, entitled "The World of Flight" is about grass roots flying.

We now have our "new" metal lathe that was donated by Nathan Davis. A committee consisting of Ed Marlen, George Taylor, and Earl Lampman was appointed to check out the equipment to see what it may need to become operational for us. Thanks again to Nathan!

We also had a donation of various parts and wood from Cletus Lamm. Many people have already checked it out to see what they can use. Thanks, Cletus!

## Program

This month's program was presented by one of our finest glider pilots, Dorothy Thomson. Dorothy gave a superb talk describing specific goals that glider pilots try to achieve, and methods and techniques for achieving those goals. Proper documentation is extremely important if a pilot wants to receive credit and recognition for a flight.

Dorothy also brought in some of the sophisticated equipment that must be carried on the gliders to properly track the flight. She presented some slides of her actual flights, and discussed the excitement and anxiety she experienced during the flights.

Many thanks to Dorothy for a terrific program!!

## Upcoming Events

Next meeting - Our next meeting is scheduled for Monday, September 14, 1987. The program is to be presented by Phil Brown.

Picnic - - - - Remember that our Fall picnic is scheduled for Sunday, September 20, 1987. Let's all plan on good weather! (Saturday Sept. 19 will be the hangar clean-up, sweep-out party. Be sure not to miss out on that fun!)

See You Monday!

Respectfully submitted,
