Vice President::

Eric Podzielinski informed us there is more work to be performed on the hangar doors to finish the doors. Eric showed the members a lawn tractor Ray Ovelgonne donated to our Chapter. We all thank Ray for His generous donation, Thank you Ray. Tom "Tire" Watkins is giving His attention to the tractor tires, Thanks to Tom. Eric called our attention to the matter of our tractors out of commission and John Rackel came with His mower to mow our grass a couple of times. We all thank John for helping in a time of need.

ATTENTION

Mr. & Mrs. Eric Podzielinski are the proud parents of a fine baby daughter. Congratulation to both and we understand both Mother & Baby are fine.

Treasurer::

Geroge Taylor gave His report and has made cards to be given to each payed-up member dues wise. I shall inclose a card to each of you with your Newsletter.

Sect.-Newsletter Editor::

I reported to all on the nice time we had up at Rochester visiting Van & Betty Eller. We had 4 planes to fly up, Lew Owen, Walter Best, Ed & his wife Rusty Marlin, myself. I also flew to Mt Morris, Ill. the 4th.

Program::

Tom Watkins gave us a real nice program on "Rubber Repair" Very good Tom, Thanks a lot.

Oshkosh::

Some of us will leave Sunday morning and spend a few days returning Wed. 26th. We hope everyone of you will have a pleasant and safe trip up and back. We will look for you.

I plan attending the Newsletter Editor Seminar on Monday so as I may learn how to write the Newsletter.

Legislatively::

All Chapter members keep your frequencies open and heads outside the cockpit. This is a suggestion from EAA. HQ.

Reason????

Here is an example, A proposed bill (H.B. 4752) in The state of Massachusetts would levy a fee on all Massachusetts pilots in order to fund a victims trust for uninsured losses. No matter what, when something happens, good or bad, pass the information on so it can be shared.

Mode C Ruling::

Paul Poberezny Received a letter from DOT Secretary Sam Skinner which read, "I have concluded that the Mode C rule should be implemented without change and according to the regulatory schedule." Looks like the Government is going ahead with their plan against the wishes of thousands of aircraft owners, pilots and citizens, to implement a program of additional restrictive flight rules. He also said, eventual, almost universal installation of automatic altitude reporting transponders in aircraft operating within the United States.

I called Margie Zinn a few days ago and she said Vic was feeling a little better. We wish Vic a fast recovery and hope to see Vic soon.

New Radios

Innercom

I just had a Narco Mk 12-D, AT-150 Transponder, AR-850 Encoder and the I D-825 Vor-Glideslope installed in my 170. Sure is nice. I just had to throw that in since I had to fill this page.

New FBO::

Perhaps some of you haven't heard, Shorty Graves has taken over operation of Boone Co. Airport as of July 1st.

Suggestions

If anyone has a favorite place they would like to go as a Fly-Out, please let us hear from you. We will get together.

Extra::

The strongest muscle in your body is in your tongue. Would you care to know, your brain is 80 per cent water.

Meeting

Have a nice Oshkosh and a nice summer, see you at the next meeting. AS of our next home meeting, if not changed, because of Labor Day, will be Sept. 4th.
