CHAPTER 67 HANGAR 1.5 MILES WEST OF U.S. 31 ON 161ST STREET

NOVEMBER 6th. E.A.A. meeting was held at Nathan Davis's manufacturing plt., Tipton, Indiana.

President:

\*\*\*\*\*

Our President, Pete Murphy called our meeting to order at 8:00 P.M. All I can say is, for those of you who missed this meeting, well, you missed a great time. To start the evening off, we had coffee followed by a looksee and question session about Nathan's beautiful project, the Acro Pro II. This project is mostly Nathan's own design and He is doing real beautiful work, in fact I should say craftsmanship. At a later date, if Nathan has the time I should like to give all of you a complete run down on His project in the Newsletter. Very impressive.

Pete reminds all of us about your Christmas Dinner on Dec. 16. Place is, Capri Restaurant, location is behind Central Hardware North of 71st and Keystone. Your dinner choice will be, Fish, Chicken or Prime Rib.

We had two new visitors, Mr. Ron Harper of Kokomo, Ind, guest of Nathan Davis and Mr. Jerry Ray Powell of Noblesville, guest of Don Roberts. Gentlemen, We welcome you and do come again.

Vice President:

\*\*\*\*\*

Eric Podzielinski reported, We are in bad need of one 7 h/p tractor engine. Joe Chadwick has been working on the Chapter tractor so, if anyone can help toward their efforts, they will be happy to hear from you. Thank you. 7 hp. vertical shaft.

Treasurer:

\*\*\*\*\*

George Taylor has been away and He had Don Dole set in for His Reports. George was with us to-night giving His report and He Thanked Don for all His help.

Sect-Newsletter Editor:

Reports

\*\*\*\*\*

Dick Ervin was at Oshkosh for a meeting and He informed us it may be in our best interest to nominate one of our own to

represent the Homebuilders of E.A.A. Dick feels it would be appropriate to elect some Board Members for this cause. Dick also informed us that FAA. will be tough and strict on you if you stray into one of the TCA'S. BEWARE, Take Heed!!!! We thank Dick Ervin for His most informitive report. Dick said there is a two year hold on the Frequency Stability tolerance. I sent each of you the artcle on this with your last Newsletter, remember?? Thanks Dick for your help.

Tour  
\*\*\*\*

Nathan gave us a grand tour of His manufacturing Plant after the meeting. We were all impressed with the type of products and all the tooling used. Looked like they produce quality parts and a fine operation. Good Nathan, we thank you for a great time.

Winter  
\*\*\*\*\*

The weather which cuts our flying time down seems to be closed on us or nearly so. We hate to see bad weather come because all of our warm flying weather is in the past. No fly-in's , no fly-in breakfast, chicken bar-b-q or pig roast. Airshows all gone maybe one here and there once in awhile in Cal. Texas or Florida. Anyway I hate to make it sound so bad but we may have a day now and then. I havent a place for you to fly to at this time but, as soon as I do, I will let you know. If any of you would care and be interested, we could fly down to Rough River. Like maybe Sat. or Sunday if we have weather good enough. Give me a call and I will arrange a trip to Rough River.

B-2 Sneaky

"We should think of the Stealth Bomber's peacetime uses," said the carousing husband to his drinking buddy. "Imagine coming home late at night undetected."

Too many square meals will give you a round body. What do you call an infant hooked on television? A couch tater-tot.

A recession is when you tighten your belt. A depression is when you have no belt to tighten. And a panic is when you have no pants to hold up.

" Don't worry!! If this seat belt idea works, we'll be famous."
