**GRASS CUTTING**

\*\*\*\*\*

It was determind at this meeting that no one or or at least a few members were willing to help cut the grass at the hangar. We need some of you to volunteeer your time to help us so the few will have a break. So many of the members never help on any of your projects, only a few and always the same people. What would our chapter be like if these few would cease giving of their time?? Please take a little more interest in your chapter, volunteer some of your time even an hour and enjoy helping your fellow members. Since most of the members never help, a question was ask, should we give up our hangar and desolve chapter 67. Now, how do you feel, do you feel we should do this???

It was felt that all of you would have time to do the things you like or need to do on Sunday giving you a better time for your picnic. Perhaps this could be an evening meal for most of you. Anyway, we can try this and if most of you like this, we can make the pinic fall this way.
