

## **EAA Chapter 67**

**7/5/10**

Thank you to Jerry and Brian for the grilled chicken breasts. We had an enjoyable meal before the meeting.

President Brian Crull called the meeting to order. The Pledge of Allegiance was recited.

### **TREASURERS REPORT**

Dan Daubenspeck reported that the rent on the line shack has been paid. All bills are current.

### **SECRETARYS REPORT**

On a personal note, I want to thank the members for the flowers and cards on the death of my Mother. My Father asked that I send his personal thanks. It means a lot to know people are thinking of us at a time like this.

I spoke with Scott Noble. He is willing to take pictures of members with their planes, or projects. I will set up dates and report to the membership.

### **PRESIDENTS CORNER**

Remember the August meeting a week later on August the 9th. He is recommending Joey Hanley as a prospect for the Air Academy. We also need to be sure to get Aaron signed up for 2011. Plans for the August Pancake Breakfast need to be finalized at the next meeting. The program will be everyone talking about their Oshkosh experiences.

### **NEW BUSINESS**

Larry Jacobi will have his Motor Home parked in the Warbirds camping area at Oshkosh. He is planning on having a get together on Thursday evening.

Phil Brown would like a group to inspect his Pober Pixie Project. His wings are ready for cover. May need to schedule a Saturday visit in Zionsville followed by lunch.

Mike Hayden has contacted Harold Forth about coming to see his Gee Bee project. We will be planning on having a short meeting in September so we can then head over to Harold's shop in Fortville to take a look at his project.

## FLYING STORIES

Brian Crull flew his Super Cruiser to Sentimental Journey in Lock Haven PA. He was less than impressed with his reception. Fortunately his obituary in the program was premature.

Jon Ogle visited the Biplane museum at the Creve Coeur Airport in St Louis. He reported that it was well worth the trip.

## BUY, SELL, TRADE

Don Roberts has a Dodge pickup for sale.  
Doc Swenson has 2 Corvettes for sale.

The Meeting was adjourned.

Walter Copper gave a very interesting presentation on his service in B24's during the Second World War.

Respectfully Submitted:

Allan Grabeman
